TCFD WORKSHOP

CLIMATE RISK INTEGRATION, SCENARIOS AND TRANSITION PLANS

31st March 2022 | 3:30 – 5:05 pm (GMT +8)

Join this TCFD workshop to advance your response to TCFD with practical insights on the integration of climate-related risk into enterprise risk management, the development of scenario analysis, and the characteristics and components of transition plans.

Roberto Benetello
Executive Director
BCSD Malaysia

Luke Blower
Manager, Redefining Values
WBCSD

In today's day and age, it is no surprise that climate change has brought about unprecedented changes from the rapid rising of temperatures to even entire pandemics. Despite the risks brought about by climate change, there are also imminent opportunities for businesses to consider in their long-term plans.

The Task Force on Climate-Related Financial Disclosures **(TCFD)** firmly believe in the dissemination of reliable climate-related financial information to ensure that investors, lenders, and insurers have a clear view of which companies will endure or even flourish as the environment changes.
