

# Indonesia Healthcare IT Standards and Solutions

## Virtual Workshops

Day 1: July 27, 2022, 8:30-10:30 AM (WIB) || July 26, 2022, 9:30-11:30 PM (EDT)  
Day 2: August 3, 2022, 8:30-10:30 AM (WIB) || August 2, 2022, 9:30-11:30 PM (EDT)

## U.S.-Indo-Pacific Standards and Technology Cooperation Program

USTDA conducts two virtual workshops on Indonesia's digital healthcare transformation and best practices in a regional and global context. Participants will engage with key Indonesian and U.S. regulators and industry experts to share technical advice and best practices for implementing policies that advance healthcare standards, procurement, and innovation goals.

### BACKGROUND

Innovation and digitalization in healthcare requires regulators and practitioners to respond quickly to new developments across the sector. Response to these innovations will directly impact Indonesia healthcare availability, along with other applications in healthcare technologies.

The workshops, co-organized by the Indonesia Ministry of Health, allows panelists to share insights into domestic and international regulatory considerations, highlight industry experiences, economic opportunities, and promote standards harmonization. The workshop objectives are to:

#### Day 1

- Detail the landscape of Indonesia's digital transformation in healthcare.
- Share insights on the role of inclusive standards and procurement practices in fostering and promoting innovation.

#### Day 2

- Discuss the concept and design of regulatory sandbox in adapting to fast-changing technologies and in driving innovation.
- Introduce participants to new technologies and innovation in the healthcare sector.

Key participants will include Indonesian and the U.S. government officials, industry experts, as well as other key stakeholders.

### ABOUT USTDA

The U.S. Trade and Development Agency helps companies create U.S. jobs through the export of U.S. goods and services for priority infrastructure projects in emerging economies. USTDA links U.S. businesses to export opportunities by funding project preparation and partnership building activities that develop sustainable infrastructure and foster economic growth in partner countries.

Attendance at these workshops is limited to U.S. and Indonesian individuals, firms, or consultants as defined by USTDA's Nationality Source and Origin Requirements available on USTDA's website at [www.USTDA.gov](http://www.USTDA.gov).

### AGENDA HIGHLIGHTS

#### Day 1 - July 27 WIB (July 26 EDT)

- Session 1: Indonesia's Digital Transformation, Health Data Standards Development, and Interoperability
- Session 2: Indonesia Medical Device Regulations & How International Standards Support Innovation

#### Day 2 - August 3 WIB (August 2 EDT)

- Session 3: Regulatory Sandbox for Health Technologies in Indonesia
- Session 4: Case Studies of Leading Technologies in Digital Healthcare

### INDO-PACIFIC STCP

USTDA's U.S.-Indo-Pacific Standards and Technology Cooperation Program provides a forum for cooperation and exchange on issues related to standards development, technical regulations, and conformity assessment policies and procedures.
