- Do you like to come to Brussels for meetings linked to EU Research and Innovation Policy?
- Digital Innovation Hubs
- How is Factories of the Future and EFFRA performing, compared to other Partnerships or compared to ordinary calls?
- During the negotiations with the Commission, which position shall EFFRA take:
- Do you prefer to be coordinator or participant in an EU project?
- Do you think the EU's Digital Innovation Hubs policy and plans are:
- Which of these partnerships from OTHER Clusters do you think are most interesting for possible cooperation? (indicate maximum 3)
- Which of these partnerships of cluster "Digital&Industry" do you think are most interesting for possible cooperation? (indicate maximum 3)

Do you like to come to Brussels for meetings linked to EU Research and Innovation Policy?

076

Yes, I love it

Okayish, that's my job

I do it only as a last option, when I cannot find anybody to whom I can delegate it

Do you prefer to be coordinator or participant in an EU project?

087

either way ok

coordinator

participant

no interest in EU projects

How is Factories of the Future and EFFRA performing, compared to other Partnerships or compared to ordinary calls?

0 8 1

FoF and EFFRA are doing very well, definitely above average

no big differences; all the same in the end

FoF and EFFRA are definitely one of the worst

During the negotiations with the Commission,  
which position shall EFFRA take:

0 8 1

defend a realistic position in terms of KPIs and expectations

be more relaxed about it

## What do you think of Digital Innovation Hubs?

a great initiative

not so great

in fact a duplication of existing things

## Do you think the EU's Digital Innovation Hubs policy and plans are:

088

- crystall clear

2%

- good

5%

- okayish

32%

- irritating & confusing

64%

090

Which of these partnerships of cluster "Digital&Industry" do you think are most interesting for possible cooperation? (indicate maximum 3)  
(1/2)

AI/Big Data/Robotics

ECSEL (Electronic Components and Systems)

SPIRE (Sustainable Process industry)

Photonics

5G successor partnership

090

Which of these partnerships of cluster "Digital&Industry" do you think are most interesting for possible cooperation? (indicate maximum 3)  
(2/2)

Metrology (EURAMET)

High Performance Computing

Clean Steel

0 8 7

Which of these partnerships from OTHER Clusters do you think are most interesting for possible cooperation? (indicate maximum 3)  
(1/2)

Green Vehicles

Clean Aviation / Clean Sky

Shift to Rail

Clean Hydrogen

Construction/ buildings

Which of these partnerships from OTHER Clusters do you think are most interesting for possible cooperation? (indicate maximum 3)  
(2/2)

Automated road transport

Batteries

Clean Energy

Biobased economy

Maritime
