

Transitex Press Release
New Office
25/08/2021

Transitex opens its first branch in the Netherlands.

Transitex, the logistics operator from YILPORT Holding announces the opening of its newest office, located in Rotterdam. This is the company's 38th location, joining the already existing network in Europe, Southern Africa, Far East and Latin America.

In 2019, when Transitex UK opened, Samuel Nascimento, the company's manager for Europe, stated that a new phase of geographic expansion and growth in the offer of services on the continent was thus beginning. Part of its network in the region were already offices 9 offices and two logistic platforms in Portugal, Spain, Italy and Turkey. Regarding the offer of services, Transitex has been completing its portfolio to serve all points of the supply chain, including an investment in storage space, an example of which is the current construction of a reefer warehouse on the border between Portugal and Spain.

The new location on the Netherlands brings Transitex to the proximity of Europe's biggest seaport and into the centre of the continent's main consumer markets. Transitex team goals as for now are to start offering better conditions to exporters from the southern hemisphere and introducing the brand to the Dutch market.
