

What Color Is Your Healthcare Brain?®

- Do you wonder why some people are a song in your heart and others are a pain in the neck?
- Are you curious to know why your colleagues perform like gold medal Olympians, and clients or patients function like aliens from another planet?

Author Sheila Glazov will offer you the answers from her best-selling book, **What Color Is Your Brain?® When Caring for Patients**, which simplifies the complex nature of the four **Brain Color Personalities**. Sheila's fascinating and fun approach will help you understanding yourself and others and teach you how to develop and maintain more harmonious relationships in every facet of your life!

Sheila's proven and productive techniques will help you:

1. Recognize and value your "Healthcare Professional" personality strengths and idiosyncrasies.
2. Understand why your unique perspective differs from the viewpoints of others.
3. Communicate more efficiently and resolve conflicts quickly.
4. Proficiently collaborate in a non-judgmental manner to solve problems easily.
5. Keep your energy up and your stress down while effectively adapting to others.
6. Skillfully improve your rapport with you co-workers, clients, patients, residents, family members, and friends.

You will immediately benefit from Sheila's engaging and educational workshop! The **What Color Is Your Brain?®** theory is a guide to determining who you are, why others see you the way they do, and how the four **Brain Colors** play a role in your everyday life. **What Color Is Your Brain?®** concepts also explore the essential pieces of the character trait puzzle that is human interaction. Discovering your Brain Colors will boost your brain power!
