

SIDC CPE-APPROVED: 10 POINTS

# ESG Risk Management for Enterprise Workshop

18<sup>th</sup> Aug 2021 | 3:00 – 6:35 pm (GMT +8)

ESG Risk Management for Enterprise Workshop provides insights and tools to integrate ESG risk and opportunity management into business strategy, performance management and disclosures. The training builds on concepts outlined by the Committee of Sponsoring Organizations of the Treadway Commission (COSO) and the World Business Council for Sustainable Development (WBCSD) in their award-winning guidance Applying Enterprise Risk Management (ERM) to ESG-related risks.

The guidance is designed to help organizations respond to the increasing prevalence and severity of ESG-related risks, ranging from global risks such as the current pandemic, social equality, and diversity, and extreme weather events.

**Building resilience** through applying risk management to ESG-related risks and post-pandemic challenges.
