

Rupinder Gosal

I am once again interested in sitting on the Board of Directors with SABABC. I joined SABABC in 2015 and have been an active member since that time. I was elected to the Board of Directors in 2017 and have been a Director since this time. In 2020, I was elected President of SABABC. During my time as Director, I have spearheaded a mentorship program, and co-chaired two successful fall conferences.

In my term as President, SABABC was faced with, alongside the rest of the world, the COVID-19 pandemic. Owing to the work of the Board, our organization managed to adapt and put on several events despite the pandemic. My vision for the Board is to increase membership and member engagement and to continue putting out quality content for our members. It would be an honour to serve on the Board once again.
