

Alisha Parmar

I am running as a director this year as I enjoy being an active member of SABABC and I want to increase my involvement. I have been involved with SABABC's student engagement committee since 2019. This past year I was involved in putting together two panel discussions, moderated one, helped organize and attended the Chai with SABABC series, and assisted with drafting the terms of reference for the student engagement committee. SABABC has been gaining momentum, and my vision for the Board is to help capture this energy and bring SABABC to new levels in a cohesive and meaningful way. Outside of SABABC, I am a real estate lawyer at Dentons and I am involved in mentoring law students through other organizations. I have previous work experience with event-planning, including organizing and recruiting volunteers for large-scale events and seeking sponsorship. I look forward to another year working on SABABC initiatives.
