

Rupinder Gosal

I have been a member of SABABC since 2015. Since that time I've become a Director, and President. During the two year term as president I had the task of leading the organization through the COVID-19 Pandemic. Together with our board, we managed to maintain membership, provide meaningful membership content and celebrated the many achievements of our members. Being President was a tremendous honour and I would like to continue on the Board as we transition back to in person events. If re-elected to the Board I envision assisting with planning the Fall Conference and having our first in person conference since 2019.
