TUESDAY – 17 AUGUST 2021		WEDNESDAY – 18 AUGUST 2021		THURSDAY – 19 AUGUST 2021	
SUB-THEME 1	SUB-THEME 2	SUB-THEME 3	SUB-THEME 4	SUB-THEME 5	SUB-THEME 6
Sustainable ecosystems and resources; promotion, protection, and rehabilitation	Climate change; resilience, adaptation, and mitigation	Environmentally sustainable low carbon and circular economies	Sustainable economic development; industry, infrastructure, and cities	Sustainable social communities	Improved governance, social justice, and policies
<p>Is life below water – rivers and ocean, and on land adequately preserved through IEM, and is clean water and sanitation assured?</p> <p>Are we achieving the conservation of resources, the protection of biomes and endangered species and restoration/ rehabilitation of degraded land through IEM?</p> <p>Is IEM delivering the desired mitigation of impacts to restore the ecological integrity of natural resources and environmental assets?</p>	<p>Is IEM contributing to, 'climate action', and 'affordable and clean energy'?</p> <p>Does IEM facilitate resilience, adaptation, and mitigation interventions against the effects of climate change?</p> <p>Is IEM delivering a reduction in impact of climate change, risk mitigation, disaster responses and the deployment of innovative technologies to combat the effects of climate change?</p>	<p>Is IEM contributing to responsible production and consumption of resources with minimal waste generation?</p> <p>Is IEM promoting a just transition to renewable energy sources, considering a circular economy, resource efficiency, and impacts on the environment?</p> <p>How will IEM help with solving future demands for scarce minerals?</p>	<p>How will IEM promote, 'decent work and economic growth'?</p> <p>Is IEM promoting innovative sustainable ideas in industry, infrastructure and city and urban development projects?</p> <p>Are nature-based and ecological engineering solutions being considered?</p>	<p>Is IEM promoting sustainable and resilient social communities?</p> <p>How does IEM promote, 'no poverty', 'zero hunger', 'good health and well-being', and 'quality education'?</p> <p>Are environmental impacts, which ultimately impact communities significantly reduced or mitigated through IEM?</p>	<p>Are existing IEM reporting, methods, tools, policies, and legislation enabling sustainable governance and promoting social justice? Does IEM take cognisance of all affected individuals?</p> <p>Is capacity, implementation, compliance enforcement, monitoring and evaluation actions aiding the pursuit of SDGs?</p> <p>Is IEM actively promoting local and international partnerships and multi-disciplinary integration to achieve SDGs, not a silo approach?</p>
