POLY LABS – ADVANCED CLAN LAB RECOGNITION WORKSHOP
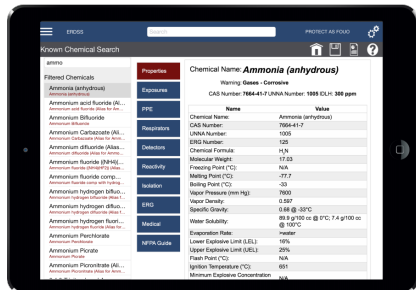

8-Hour On-Site Instructor Led Training

COURSE DESCRIPTION

The current trend across the United States is the occurrence of poly-labs, or single labs that involve multiple illicit manufacturing processes including drugs, explosives, chemical agents, and/or biological agents. This 8-hour workshop will help prepare responders and investigators to conduct an all-hazard risk-based response to a clandestine lab emergency.

Training topics will include identifying multiple lab types by the hardware, processes, and pre-cursors and then recognizing the hazards and risks associated with the processes, regardless of threat material. Students will practice updated sampling techniques and walk-through rendering safe representative clandestine labs. Attendees will receive an updated threat briefing on the current materials of interest to domestic extremist and terrorist organizations.

EMERGENCY RESPONSE DECISION SUPPORT SOFTWARE (ERDSS)

Emergency Response Decision Support (ERDSS) software includes multiple HazMat / CBRN tools and calculators, including powerful clan lab recognition tools and is available free to first responders, military, and law enforcement personnel. If possible (but not required) attendees should bring a PC computer, ipad, or Android device to class to employ the ERDSS software in clan lab table-top scenarios. Responders can register in advance and download the software at
www.chemicalcompanion.org

(ERDSS is FOUO, a government agency email address is required to register).

COURSE AGENDA

0830   Classroom Lecture and case studies

1200   Working Lunch

1300   Clan lab recognition and identification

1400   Skill Stations and demos *(90 min rotations)*

WHO SHOULD ATTEND

- HazMat Technicians
- Clan lab Investigators (including CLCs and TFOs)
- Bomb Technicians
- EOD
- CBRN personnel (including CST)

Attendance is limited to first responders, LE, and DoD personnel. Personnel attending in civilian attire should bring agency ID to class.

ATTENDANCE LIMITED TO 50 STUDENTS.

WHEN:
FEBRUARY 17th

TIME:
0830 - 1630

WHERE:
**Phoenix Fire
Special Operations Campus**

2430 S 22nd Ave
Phoenix, AZ 85009

HOST AGENCY:
Phoenix Fire

COST:
$0.00
