partnership to
catalyse sector
transformation**

Diverse portfolio of sector programmes

**Agricultural
Inputs**

**Commercial
Forestry**

**Textiles &
Apparel**

Aquaculture

Livestock

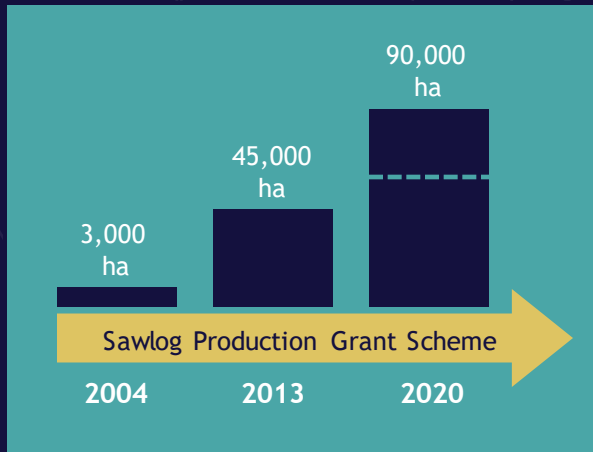

Water

Tea

Sectors across East Africa are at different stages of development

Uganda: 100,000+ ha of high quality resource developed over last 20 years

Kenya: Moratorium on logging but supply potential from 300,000+ ha farm forestry 300k ha+

Tanzania: 580k ha of commercial forestry and big potential for expansion of greenfield forestry

Our work in Commercial Forestry

Our aim: to unlock significant sector level growth across East Africa by catalysing investments across value chains with a focus on sawn timber

Potential opportunities in construction...

Roof Trusses

Flexible designs, less time

Photo: Timbertruss

Photo: Masterwood

Cassette Floors

Lighter buildings, fewer concrete columns, less time on site lower costs
