

Exclusive Membership Webinar

Embracing changes in Sustainability Reporting

How ready is the Philippines business community to adapt the future of Sustainability Reporting?

ZOOM WEBINAR 01:30 PM - MARCH 29, 2023

ORGANIZED BY:

**Business for
Sustainable
Development**

INVITED SPEAKERS FROM:

**Securities and
Exchange
Commission
PHILIPPINES**

Background

Business for Sustainable Development has pioneered in providing sustainability development assistance to the private sector for 31 years and the evolution of sustainability reporting among the different sectors has been quite dynamic. With the half-way point of the 2030 Agenda fast approaching, there are challenges to catch up with sustainability goals in the aftermath of the COVID-19 pandemic. Corporate Sustainability Reporting is one of the many steps to embark on the sustainability journey of an organization. Through compliance, reporting guidelines are strictly implemented and practiced in the management systems of a company which in return contributes to the achievement of Sustainable Development Goals. With the urgent call for action of the global community, the Philippines has stepped up in adapting to and closely monitoring these changes to corporate sustainability reporting.

The aim of the webinar is to equip participants with the necessary knowledge and tools to navigate the changing landscape of sustainability reporting. The event will feature a panel of experts who will share their insights on the latest trends and innovations in the field, and will provide a platform for discussions and knowledge-sharing among participants. This webinar is ideal for BSD members who are keen to stay up-to-date with the latest developments in sustainability reporting and want to learn how to leverage them to drive sustainable practices in their companies and organization. In this webinar, we gathered representatives from the different sectors to speak about the latest developments in Corporate Sustainability Reporting. We will be hearing from a reporting framework organization, an international sustainability advocate, a representative from the private sector as well as from the government sector

Objectives

- Increase the awareness of the need to comply with sustainability reporting and adapting to new guidelines
- Address questions on the implementation of corporate sustainability reporting
- Encourage dialogue and knowledge sharing among the panelists and BSD Member Companies
- Create collaborative work between the different sectors involved in the webinar
- Increase the contribution to the resource center of BSD Knowledge Hub.

Target Audience

BSD Member Companies are the main participants for this webinar. Professionals coming from the following industries:

- Agribusiness
- Banking
- Environmental Services
