

Empowered Communities East Kimberley

Community Forum 'Path by the River'

8th December 2022, Kalumburu Community

We need one person per **household** to learn **parenting, mental health, disabilities** and **relationship skills** that will strengthen the family unit and identify services needed and learn how to **develop a budget** to survive day to day. We need to **clean** our households, so we have **healthy families**. We need to have good **structures** in our homes, so our kids have good **routines**.

We need to provide **education** for kids that are **disengaged** and continue the 2-way learning already implemented in school. We can do this by scoping **alternative education models** and strengthening the **2-way learning** by building more community capacity for teaching or education assistants.

We need to **support and build strong families**; we can do this by having strong **leadership** and providing family **community activities** for individual or community healing.

We need to provide a **safe space** for **our men**, to restore family **balance**, we can do this by investing in the **Men's Program** and advocating for their **own centre/shed**.

We need our own **community justice** system to get kids & families going **Back to Country and on Culture Camps** instead of going to detention/jail.

We need access to **good** nutritional **food**; we can do this by **restoring** our **community garden**.

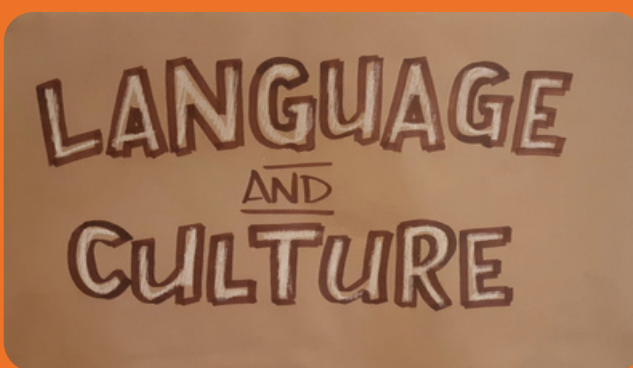

Kalumburu Community Forum 8 December 2022

This was a local Empowered Communities forum where Kalumburu Aboriginal people had their voices included in the Regional Development Agenda for Kalumburu and the East Kimberley.

We are focussing on five important areas where we want to see things improve. Together we are making a peoples movement and plan for change led by community voice and supported by Government.

“Kalumburu Old People were strong,
Kalumburu needs to be strong again”

We need to look after our **Elders** to provide space for practical intergeneration learning, revival of cultural identity and documenting of **language, arts & culture**.

We can **build** strong families by teaching the **whole** family unit about **language, arts and culture**.

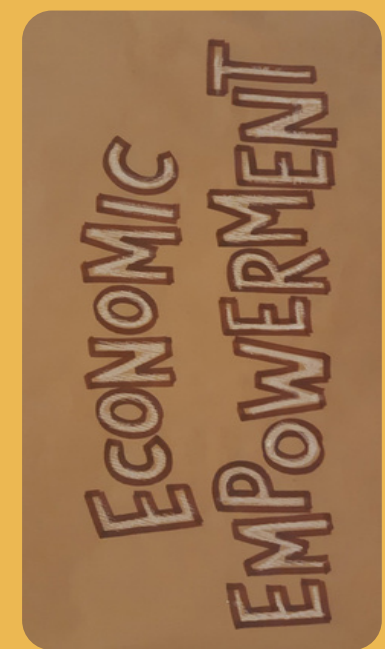

We need more power for **mandatory protocols** when entering community, we can do this by designing our own **protocols** and **cultural awareness**.

We need to change local **gambling behaviours** across the community to positive learning experiences around **financial budgeting** and **family orientated activities**. We need to provide our working parents a **Day Care Centre** for them to stay in employment. We can do this by **training early years educators** and scope funding for **infrastructure**.

We will work with the **school** to provide **alternative educational pathways** for kids/teenagers dropping out of school, we can achieve this by working with parents to **build respect** and **value for education**. We need to teach our **young adults life skills** by giving them the **right training and opportunities** to have their say about their **issues** and **affairs** in the right **platform & space**.

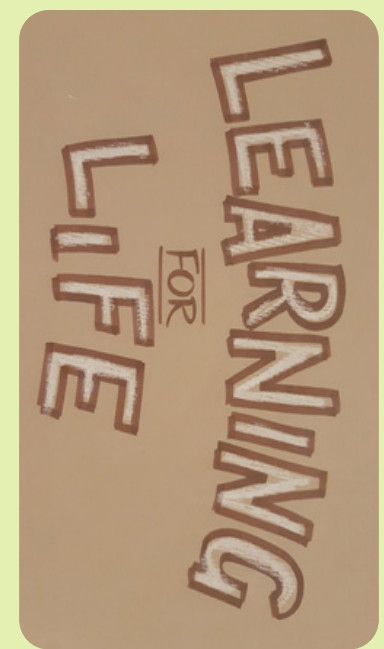

We need to have **community training opportunities** so we can maintain our own roads, housing, infrastructure & recycling, we can do this by partnering with **EJKP & NRTAFE** to deliver place-based training that aligns with community **employment** opportunities. We need to **build capacity and skills** sets so local people are employed in these FIFO

/DIDO services.

We need to progress the **Kalumburu Economic & Enterprise Priorities** by playing a key role in implementing **actions** and **responsibilities**.

We need to learn, reflect, analysis and interpret **data** around population, **housing, employment & health** so data can reflect current circumstances.

KALUMBURU COMMUNITY FORUM- PATH *by the RIVER*

Heating what's important to individuals & families

- 8th DEC, 2022 -

KALUMBURU VISION

PRIORITIES

FAMILIES at HOME

- LEARN ABOUT...
- PARENTING
- MENTAL HEALTH
- DISABILITIES
- RELATIONSHIP SKILLS

CLEAN HOUSES = HEALTHY FAMILIES

STRUCTURE & ROUTINE

EDUCATION for disengaged kids

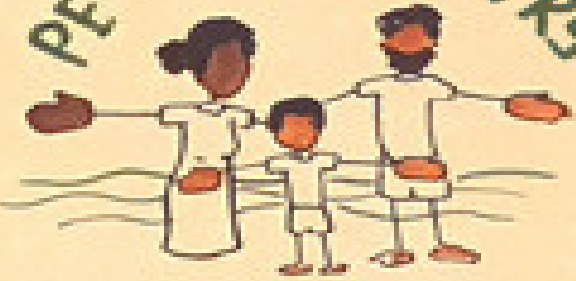

STRENGTHEN **2WAY** learning

ALTERNATIVE EDUCATION models

BUILD COMMUNITY CAPACITY:
* TEACHING & EDUCATION ASSISTANTS *

- TRUE POPULATION?
- VACANT HOMES?
- PEOPLE on the HOUSING WAITING LIST?

PEOPLE & COUNTRY

STRONG FAMILIES SUPPORT BUILD

LEADERSHIP COMMUNITY ACTIVITIES

COMMUNITY JUSTICE SYSTEM

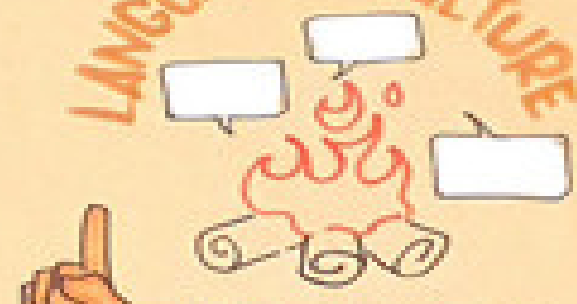

ACCESS to GOOD FOOD

RESTORE COMMUNITY GARDENS

- HEALTH DATA
- MENTAL HEALTH ISSUES
- CORRECT DIAGNOSIS

- COMMUNITY & INDIVIDUAL HEALING
- SAFE SPACE FOR MEN
- COMMUNITY GARDEN
- COMMUNITY JUSTICE SYSTEM

LANGUAGE & CULTURE

TAKE CARE OF OUR ELDER'S

INTERGENERATIONAL **learning**

LANGUAGE, ARTS & CULTURE DOCUMENTATION

TEACH this to BUILD STRONG FAMILIES!

- MANDATORY
- PROTOCOLS & CULTURAL AWARENESS
- AWARENESS

LANGUAGE PROFICIENCY & LEARNING (FORMAL & INFORMAL)
LANGUAGE GROUPS - HOW MANY? HOW MANY FEEL CONFIDENT IN PRACTICE & PROFOUND KNOWLEDGE?
CULTURE!

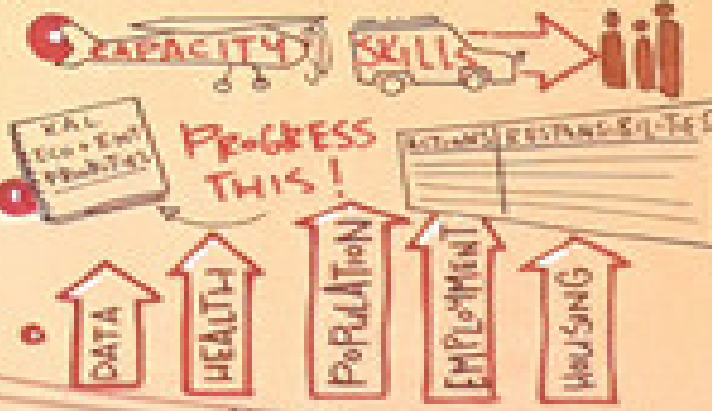

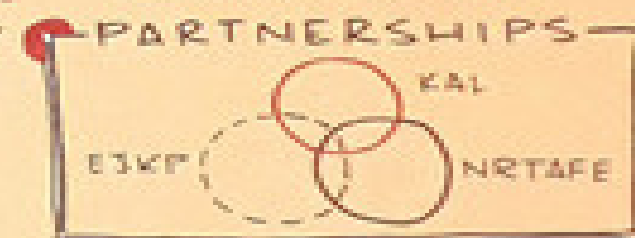

- INTERGENERATIONAL LEARNING WITH OUR ELDER'S
- MANDATORY COMMUNITY PRACTICE & CULTURAL AWARENESS
- REVIVAL & DOCUMENTING OF OUR LANGUAGE, ARTS & CULTURE

ECONOMIC EMPOWERMENT

COMMUNITY TRAINING OPPORTUNITIES

- ROADS
- INFRASTRUCTURE
- HOUSING
- RECYCLING

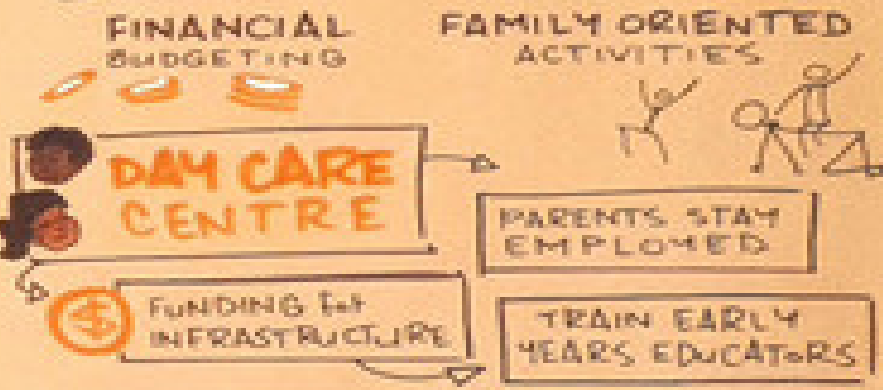

LABOUR FORCE TYPES - GAPS & TRAINING REQUIRED

- APPROPRIATE TRAINING & COMMUNITY LED PROJECTS
- ECONOMIC ENTERPRISE PRIORITIES
- DATA TRAINING - ANALYSIS & INTERPRETATION

LEARNING FOR LIFE

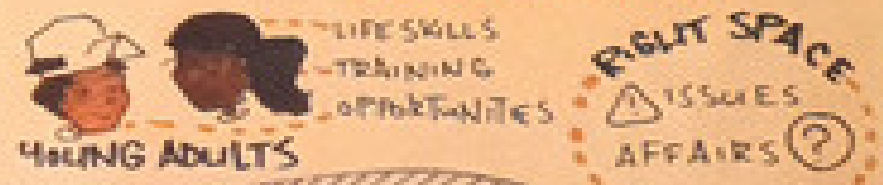

CHANGE GAMBLING BEHAVIOURS

ALTERNATE EDUCATION PATHWAYS

BUILD RESPECT & VALUE for EDUCATION

WHY ARE KIDS DROPPING OUT?
WHAT ALT. ED. PATHWAYS are AVAILABLE?

- FAMILY ACTIVITIES & LIFE SKILLS
- YOUTH SPACE PLATFORM & MENTORING
- ALTERNATE EDUCATION OPTIONS

STRENGTHENING FAMILIES 1 HOUSEHOLD AT A TIME

KALUMBURU DATA SNAPSHOT According to the 2021 Census...

POPULATION

343
Aboriginal people living in Kalumburu

91
Families living in Kalumburu

54% of Aboriginal people are 24 years or younger

EDUCATION

For Aboriginal people living in Kalumburu...

42 people with Year 9 education or below	90 people with Year 10 education	60 people with Year 11 education	29 people with Year 12 education

EMPLOYMENT

In the labour force

Not in labour force (includes CDP participants)

20% of Aboriginal people in Kalumburu aged 15 or over are in the labour force

HEALTH

The most prevalent chronic diseases for Aboriginal people in Kalumburu are:

 Asthma (26 people)	 Diabetes (43 people)	 Mental health conditions (13 people)
----------------------------------	------------------------------------	--

HOUSING

 85 occupied dwellings	 7 unoccupied dwellings	 68 households with children
 4-5 people per household, on average	43% of dwellings were overcrowded	

COMMUNITY

103 people are providing unpaid care to people with disability or health condition or due to old age

155 people are caring for children, unpaid

9 people in Kalumburu do volunteer work

DATA NEEDS FOR KALUMBURU

How many people are speaking & learning Language? How many speakers in each language group. How many people feel culturally strong?

What is the true population level of Kalumburu?

We need to know how many vacant houses, how many people on housing waitlist, exact number of people in households?

We need right Health data?

We need to understand the labour force (types) and find ways in build our workforce through training

We need to find out why kids are dropping out from school

KALUMBURU PRIORITIES

'Strengthening Families One Household at a Time'

FAMILIES AT HOME

- Community led projects/programs that build household capacity
- Financial & Legal Management
- House & Yard Initiatives
- Scope alternative education models
- Early Years sector strengthening

PEOPLE AND COUNTRY

- Community & Individual Healing
- Safe Space for Men
- Community Garden
- Community Justice System
- Back to Country Programs

LANGUAGE AND CULTURE

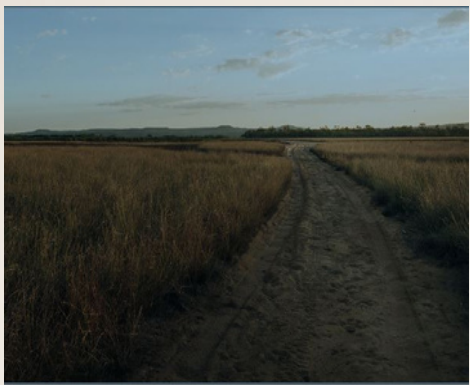

- Intergeneration Learning with our Elders. Establish Elders Council
- Mandatory Community Protocol & Cultural Awareness
- Revival & documenting of our language, arts & culture

ECONOMIC EMPOWERMENT

- Appropriate training and community led projects
- Economic Enterprise Priorities
- Data Training to reflect, analysis and interpret data around population, housing, employment, education & health

LEARNING FOR LIFE

- Family Activities & Life Skills

- Alternative Education Options
- Community Child Care Centre

KALUMBURU 2ND ECONOMIC & ENTERPRISE ROUNDTABLE
 16th August 2021, Kwin Country

KALUMBURU ECONOMIC & ENTERPRISE PRIORITIES

We need progress the Kalumburu Economic & Enterprise Priorities by playing a key role in implementing actions and responsibilities.

1

Building a Strategy for Tourism Development in Kalumburu

2

Progressing Local Enterprise Opportunities in Kalumburu

3

Business Hub

enterprise partnerships.

Our Sub Regional Plan: Kalumburu 'Little One Plan'

Our Behaviors: ECEK Social Norms

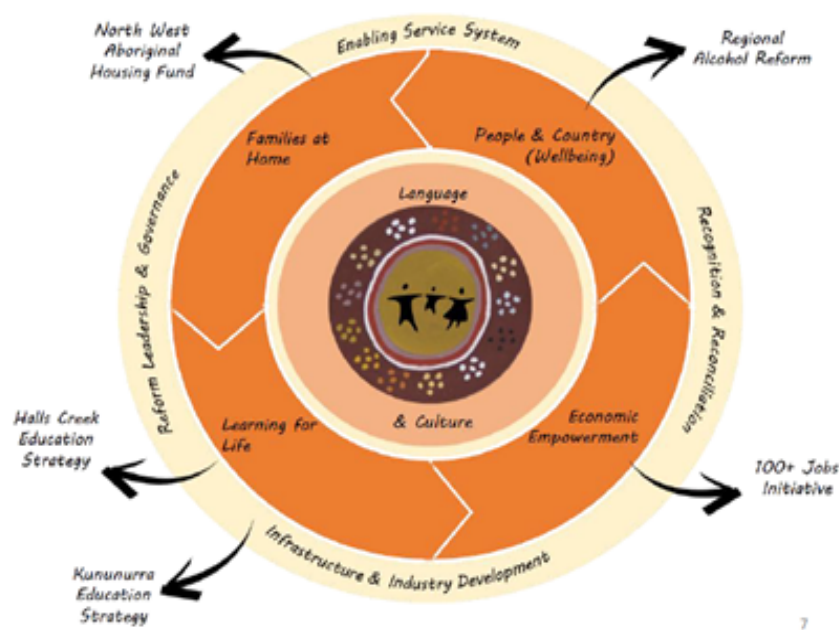

Our Way Forward: Kalumburu Way, Kalumburu Style

We need to join up the efforts of all community members, community stakeholders (non-government organisations and all levels of government) to improve the social, economic, mental and physical wellbeing of our community. Our approaches are to be community led and collaborative by partnering with the right stakeholder.

We need to be part of the design, we need to share accountability, we need families to build capacity & capability for positive outcomes and impacts.

When our families and our communities are strong, we can then respond to complex, challenging issues such as social and economic disadvantage, mental health, disconnection to our language & culture and remote geographically areas.

Our Goals: ECEK Development Domains

Governments

Engagement & designed with

Infrastructure Planning

Data Sharing & Analysis

Right Investment

Evaluation and accountability

Community

Community Led Solutions

Shared accountability

Shared Vision

Shared Capability & Capacity

Strong Families, Strong Community

Partners

Respect & Value our L & C Protocols

Opportunities to build jobs local

Work together with

Service Co-ordination

Positive Outcomes & Impacts

Our Vision: Reginal Development Agenda

The **East Kimberley Regional Development Agenda** outlines the importance of community, aboriginal community-controlled organisations, corporates and industry, and all levels of government working closely together to improve community wellbeing via place-based initiatives.

Community: Our community was strong, we had strong leaders, strong language, strong culture, strong identity, strong connection to country. Communities are the centre of all place-based approaches. Our families need to participate, contribute and engage in program & activities and take greater responsible for household capacity building, health, education, employment, well-being, our Elders and culture. We want strong families and a stronger community again.

Governments: Need to join these efforts and listen to community led approaches. Mandate Cultural awareness and community protocols when entering our community. And provide the right resourcing, evaluations, investment and access to data when requested.

Partners: Need to work with community and listen to community to provide positive outcomes and impacts as well as better service delivery.
