

NALBAIN

NEW

DEAR HEALTHCARE PROFESSIONAL,

Arya Pharma is honoured to announce the launch of Nalbain solution for injection in South Africa!

NALBAIN INJECTION is indicated in adults for the **management of pain severe** enough to require an opioid analgesic and for which alternative treatments are inadequate.

As a supplement to balanced anaesthesia, for:

- Pre-operative and post-operative analgesia.
- Obstetrical analgesia during labour and delivery.

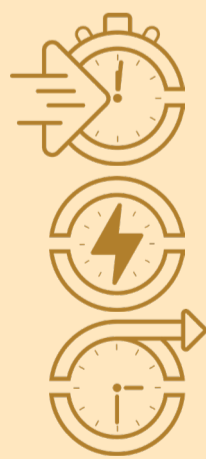

Nappi Code	Medicine Schedule	Medicine Proprietary Name	Active Ingredient	Strength	Dosage Form	Pack Size	Single Exit Price - ZAR (excl. VAT)	Single Exit Price - ZAR (incl. VAT)
3007613001	S5	Nalbain Injection 10mg/ml	Nalbuphine Hydrochloride	10	INJ	10	342.01	393.30
3007614001	S5	Nalbain Injection 20mg/ml	Nalbuphine Hydrochloride	20	INJ	5	342.01	393.30

WHY USE NALBAIN FOR YOUR PATIENTS?

- **Fastest onset of action** compared with competitors.¹
- **Longest duration of action** compared with competitors.¹
- **Least potential for narcotic abuse** compared with competitors.²
- **Less withdrawal symptoms** compared with competitors.³
- Similar **potency** to morphine.⁴
- Significantly **less nausea and vomiting** compared with competitors.⁴
- Nalbuphine has a good **safety** profile.⁴
- Nalbain offers the convenience of **subcut, IM or IV routes of administration.**⁵

Ultimately, it all comes down to what your patient needs – something you would know best.

RAPID POTENT LONG-LASTING

Nalbain has the shortest onset of action and longest duration action, and it's affordable!¹

Should you have any queries, please contact Aneesa Jacobs on **010 060 0741** or **admin@aryapharma.co.za**

Regards,
Arya Pharma

Subcut: subcutaneous. **IM:** intramuscular. **IV:** intravenously.
