

New Calibration Facility

The first commercial calibration facility for liquid flow meters in the UAE that uses hydrocarbon liquids

- Flow rate: 15 m³/h – 4000/6000 m³/h
- Viscosity: 0,7 – 70 (150) cSt
- Pressure: 0,1 – 1,9 MPa
- Flow meters size: 25mm – 500 mm
- Temperature measurements accuracy: ±0,1°C
