

Why take YouScience®

YouScience helps you discover your natural talents and connects them to personalized career and education opportunities.

“It opened my eyes to more job opportunities that I hadn’t considered previously.”

— James C.

The benefits to you

- Scientifically proven solution to help uncover aptitudes and interests
- Improve self-confidence and overcome exposure biases
- Find out ‘Why you are learning.’
- Reveal natural talents not tied to traditional academic measures
- The only online performance-based measure of aptitudes with nothing to install
- Proprietary algorithms, artificial intelligence, and more than 50 years of research data on aptitudes

What’s included

- Personalized aptitude and interest results
- Career explorations based on best-fit careers
- Education & Career Planning including 4-year course planner and resume builder
- Suggested colleges and career programs
- Details on local and national employers

The power of YouScience

Aptitude & Career Discovery matches your aptitudes with 500+ careers, including top 15-20 best-fit careers. Career matches also include salary ranges, projected openings, education requirements, day-in-the-life insight, and more. Results include self-advocacy language to assist with resumes, applications, essays, and interviews.

“I feel better knowing that there are more jobs out there that I can do.”

— Mae A.
