

Imeiniar Chandra – Associate Director, Michael Page Indonesia

Imeiniar pioneered the Michael Page Indonesia office when she entered the recruitment industry in 2013 as an associate consultant. She came onboard fresh from completing an MBA course at the Imperial College in London which she applied for after four years in corporate banking.

She began recruiting in the finance and accounting division, hiring mid to senior-level management professionals primarily in the FMCG and manufacturing industries. She later moved onto sales and marketing recruitment to lead the division and was promoted to the management level in the beginning of 2016. Imeiniar thrives on the dynamic pace in the recruitment industry in which she says no two days are ever the same. She also finds on-the-job excitement from managing a team and growing professionally with her team.
