

ASEAN Automotive & Motorcycle Parts Manufacturing Summit 2018

POST-CONFERENCE REPORT

17-18 April, 2018

Ho Chi Minh City, Vietnam

For the first time, Ringier Event's automotive conference for SE Asia was held in Vietnam and was welcomed with an overwhelming need and support for such platform from local industry elites. Partnered with 7 Associations, we welcomed 212 participants and 26 speakers from 13 countries.

Vietnam's metalworking and plastics industry representatives gathered in numbers to discuss on development of lightweighting technologies, engineered plastics and their applications in automotive manufacturing, quality control & inspection systems, part materials and designs, as well as the latest laser cutting, welding and operating techniques. Many panels involved the future of Vietnam developing strong, domestic automotive industry in regards of the newest regulations, obtaining skilled workforce and trends on international markets.

The successful conclusion of AAM Conference reflects the growing importance of breakthrough technologies and high-performance materials in Vietnam's and regional automotive industries, as well as huge potential of its manufacturing sector.

Relevant issues covered by industry experts:

Vietnamese market is on the crossroads – with its young and abundant workforce and supporting government policies it is on the verge of transforming into new automotive manufacturing hub. With Industrial Zones like Haiphong offering operational incentives for FDIs, strategic location in SE Asia region and strong will to produce high quality, localized parts Vietnam is the hidden charm country in ASEAN that starts to shine.

Metalworking processing technologies:

Current direction of development in construction is leaving bolts and screws behind and focusing on lasers. Many of our industry experts from companies such as Trumpf and LaserMech provided visitors with in-depth information about advantages of different kinds of equipment, such as Diode, Fiber, Disk or CO2 lasers and their applications – from laser marking, cutting, welding, brazing, cladding, drilling and ablating and how those techniques can be used to improve your production efficiency.

Hottest engineered plastics applications:

Plastics are certainly increasingly important for any automotive manufacturer. As Dr. Helms from Celanese Corporation explained it - designing and usage of injection molding, not only provide with savings in production, but by using engineered modern plastics, you can increase durability, heat isolation and most importantly weight. And that in the age of pollution regulations, that continuously grow stricter, that is a key factor for any automotive manufacturer.

What AAM 2018 Delegates Said

AAM prides itself on providing delegates with a quality conference that meets and exceeds expectations in terms of the information shared and networking opportunities available.

100% Met Venue Service (Hotel Service)

98% Met Venue Environment

93% Met Conference Program

90% Met Expectation on the Conference in General

90% said they learned something new and useful from the presentation.

Exhibition visit: Interaction & Networking during Tea Breaks

Cocktail Party: Exchanging & Building up connection

* Feedback provided through voluntary completion of the post AAM 2018 delegate survey.

“

Many thanks for your information and we also feel grateful for all your efforts and we could get that opportunity to join this wonderful meeting.

Darren, Sales Manager,
Labthink Instruments Co., Ltd

”

“

Congratulation and thanks to Ringier team for wonderful seminar

Pham Anh Tuan,
Head of VAMA Policy Sub-Committee
/ Toyota Motor Vietnam,
Vietnam Automobile Manufacturers
Association(VAMA)

”

“

Wonderful! Thank you very much, I also enjoyed the event very much!

Dr. Oliver Massmann,
International Attorney at Law /
General Director,
Duane Morris LLC

”

“

Congratulations on the well-organized event. We are grateful to Ringier for the opportunity to address to guests and certainly established several good potential contacts. In case you see other opportunities in the future for us where we can contribute to your events, feel free to reach out.

Hans Kerstens, Director,
DEEP C Industrial Zones

”

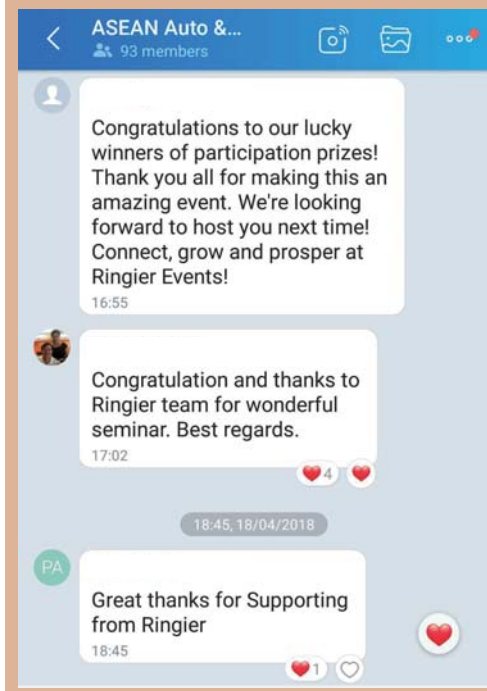

“

Now that it has been a few days since the successful summit, I wanted to send my sincere thanks for not only hosting me to speak on behalf of the foundation, but also for the support and warm welcome throughout the summit/organization. It was a pleasure both attending and participating, as well as connecting more fully with Mike and the entire Ringier team. I was impressed with the quality and expertise of the many speakers, and the delegate engagement throughout the two days. We at the foundation look forward to staying up to date on your events and will continue to engage as we are able!

Alex Ward, Program Manager, Education Partnerships, Hinrich Foundation

”

“

Great thanks for Supporting from Ringier.

Phan Tat An,
Sale Engineer,
ADT Systems Vietnam
Co., Ltd

”

“

I think AAM is a great chance for supplier exchange and update the trend/new technology in 2W&4W.

Mr. Le Thanh Huy,
Deputy Manager,
Denso Manufacturing
Vietnam Co.Ltd.
