

ASEAN Food and Beverage Manufacturing Summit 2020

11 September 2020 | 1pm-5pm Singapore Time (GMT+8)

CONFERENCE THEME: Formulation, processing, preservation, packaging, contamination prevention and hygiene of production of nutraceutical & bioactive F&B products and how to pack them with high quality, durable and attractive packaging.

- **No more missed opportunities** – your videos, exhibition booth, promotional material and lead collecting information will stay online and available for X months after the event!
- **Improved Lead Generation** – you have access to every booth's visitor information – so you will know who got interested by your product, even if they were too shy to ask you a question!
- **More opportunities for connecting and promoting** – engage in 1-on-1 face-to-face video calls with your booth visitors, provide promotional materials for downloading and attach catchy videos to build your brand image.
- **Safe & Convenient** – **no cost of travelling, no health hazards, no limitations!**

„Possibilities for food and food production is on the rise in Vietnam. More and more, the Vietnamese people are interested in and willing to pay for healthy and high quality products”

Netherland Ministry of Agriculture, Nature and Food Quality
Market report for 2020

Vietnam – ASEAN's F&B Tiger

Food & Beverages sector accounts for 15% of Vietnam's GDP and exhibits steady 7% annual growth. Moreover, due to China-USA tensions FDI have seen a rapid surge as more and more companies move their production to Vietnam.

Vietnam's economic momentum continued throughout the first quarter of 2019, with GDP growth anticipated to be the highest in ASEAN from 2019-2023. In a region with strong private consumption, Vietnam is set to top ASEAN forecasts to 2023 and with Vietnam Dong being one of the region's most stable currencies over the recent past years, the business environment of Vietnam looks extremely promising!

Vietnam's export turnovers for processed foodstuffs and agricultural products totalled more than \$40 billion US in 2018. Vietnamese products have been present in 200 countries and regions, including the United States and Japan. **Currently Vietnam occupies the position of the biggest exporter of dried fruits and nuts in ASEAN (valued at \$6 billion US) and 3rd biggest exporter of instant noodles in ASEAN (valued at \$238 million USD).**

Despite having almost 3 times smaller population than Indonesia, Vietnam is chasing her for the title of the biggest Ready To Drink market in ASEAN region with market worth of **\$3.37 billion US**, leaving Thailand at number 3.

Total value of RTD tea market in selected Southeast Asian countries in 2015 and 2020

Event Delegates Dynamics

The goal of **ASEAN Food and Beverage Manufacturing Summit** is to create a forum for providing in-depth information about market trends and technological processes used in Food & Beverage manufacturing and Manufacturers to connect with technology, machinery and solution suppliers in purpose of developing their business capabilities:

TRANSFORMERS – primary processors (responsible for turning raw materials into food ingredients through cleaning, sorting, milling and other preparations)

CONVERTERS – secondary processors (the biggest group – responsible for creating products we all recognize – through mixing, cooking and in other ways further processing ingredients)

PACKAGERS (one, if not the most important group – as packaging design – its look, functionality, information it contains is usually one of the deciding factors in consumers' decision making process)

10%

60%

30%

To support this goal, we've built a strong base of supporters both domestically and internationally, that can assist you not only in finding out more about Vietnamese market, but most importantly assist in connecting manufacturers and suppliers across the Food and Beverage industry.

Food and Foodstuff Association of Ho Chi Minh City (FFA) – one of the most important and active organizations in the vibrant south of Vietnam consists of biggest F&B manufacturers in the country.

Vietnam Packaging Association – is the main organization associating contract packaging companies, that serve Vietnamese F&B manufacturers.

Vietnam Beer, Liquor and Beverage Association – a non-governmental voluntary organization of Vietnamese businesses with a purpose to link, cooperate and support each other in developing new technical means of production, business and service.

ASEAN Food and Beverage Manufacturing Summit

CONFERENCE FOCUS:

In 2020 Ringier Events will tackle the most important issues for sustaining the development rate of the F&B industry in Vietnam:

1. Increasing output capacity through automation.
2. The role of blockchain technology in an integrated manufacturing system.
3. Improving Quality Control to access higher profitability markets.
4. Introducing healthy options in response to customer demands.
5. Implementing Sustainability Principals – for both customer recognition and cost-saving.

INGREDIENTS

1. Probiotics as a natural tool for boosting immune system.
2. Sugar substitutes
3. Bio preservatives.

PROCESSING

1. Preservation of nutrients in dried fruit and vegetables.
2. Technology advancements in RTD manufacturing.
3. Best methods for QC of Food & Beverages products.

PACKAGING

1. How to increase your packaging line efficiency.
2. Modified atmosphered packaging for fresh food.
3. Bioplastics and biodegradable materials.

AUTOMATION

1. Practical benefits of single unit automation.
2. Automated manufacturing lines as a response to rapidly shifting consumer demands.
3. How to achieve same efficiency with 3 times less staff.

DIGITIZATION

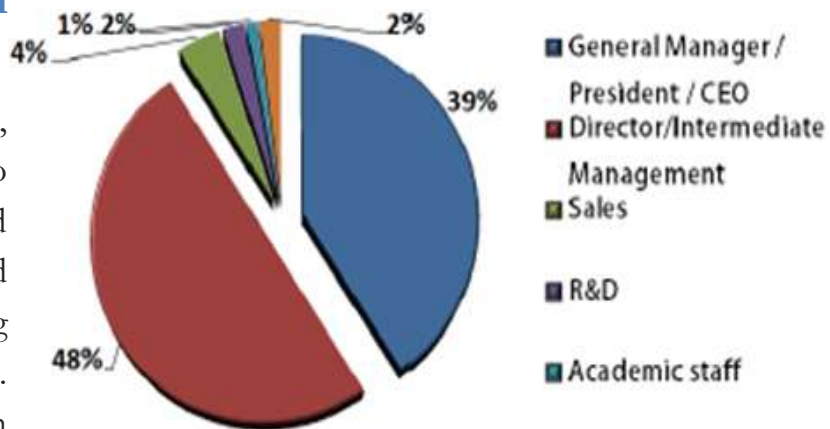

1. ERP manufacturing software for information integration.
2. Best ways for line management to increase production efficiency.
3. How Employers and Employees Can Adapt to an Automated Workforce

Reasons Why You Should Attend

➤ Face-To-Face Communication With Top Quality Delegates

Meet with industry experts, manufacturers, suppliers, regulators, distributors, academia to gain insight from top R&D teams in the field of F&B industry. Learn the regional trends and future manufacturing directions following environment-friendly consumers' demands. And create new business opportunities with companies from Vietnam.

➤ Learn From The Industry Experts

Discover new products, services and solutions for your business to achieve higher profitability.

➤ Visit Exhibitors' Booths and request one-on-one business meeting

Engage with best suppliers of technology, products and services at our exhibition area. If needed, our staff can organize a one-on-one meeting in a private room with the supplier of your choice for in-depth business meeting.

➤ Meet New Suppliers and Agents

Meet potential partners in Vietnam and ASEAN through networking activities during Ringier's Business Summits.

➤ Build Your Business Network

Focus on Food and Beverage manufacturers and successfully meet your target business partners through Vietnamese associations.

ABOUT RINGIER

Taking advantage of powerful media resources, Ringier Conference covers the industries of plastics, food, personal care, medicine & health care, nonwovens, coatings & ink, automobile, metal, mold & die, package, composite material, and the latest technologies. Since 2003, we organize over 20 high level conferences bringing industry leaders together for information exchange and networking opportunities in China and successfully extend into S.E.Asia from 2014.

A series of conferences in S.E.Asia that cater specifically to industry verticals like metalworking technology, plastics processing, automotive, food beverage processing & packaging representing growth sectors in many S.E. Asia countries. These sectors require high levels of technology and upgrading to meet the growing needs of sophisticated consumers both domestically and for export markets.

Conferences organized by Ringier not only provide industry leaders with the latest technologies, but also help Greater China enterprises innovatively explore new markets. For more information, please visit www.ringierevents.com
