FBPR 2019 Event Highlight

-Great appreciation for factory tours-

We especially arranged factory visits to well-known Indonesian companies:

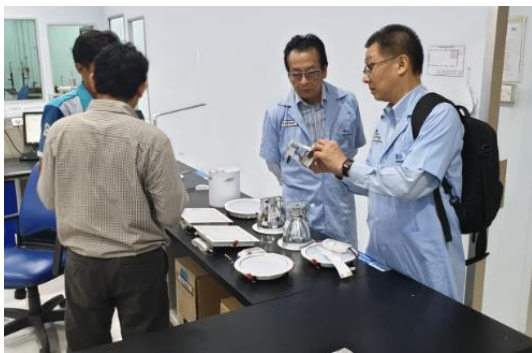

- PT. Dynapack
- PT. Sucofindo Laboratory

PT. Dynapack is Indonesia's leading rigid plastic packaging company with a strong market position. Its products are used across various industries such as food, beverage, personal care, and pharmaceuticals, in Southeast Asia and China.

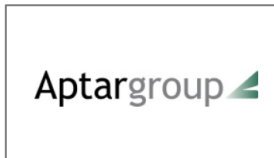

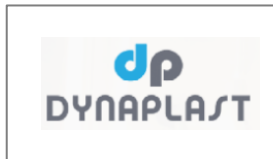

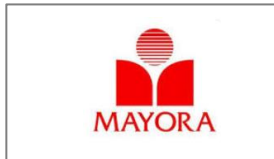

PT. Sucofindo Laboratory is a leading inspection center in Indonesia covering inspection and audit, assessment and analysis, certification, consultation, and training for diverse industries.

FBPR 2019 Event Highlight

— Indonesia's major companies are regular participants —

Successful face-to-face meetings between sponsors and "important target buyers"

FBPR 2019 Event Highlight

Interactive games connect guests enthusiastically

At this event, a new Booth-Hunting game further successfully created a number of exchanges between guests and sponsors at their booths.

Presentations that address market needs

FBPR 2019 Event Highlight

New service for continuous exposure after the event

Special Video Interviews with

- (1) Dase-Sing
- (2) Frigel Asia Co Ltd.

Showcasing their

- (1) Products and solutions
- (2) R&D capability
- (3) Service advantage
- (4) Future direction

The videos are emailed to conference participants within 2 weeks after the event to ensure sponsors of further business exchange with target buyers.

This service is new marketing tool to help sponsors reach more potential buyers!

Direct Email Blast

The videos are sent to all attendees of the event by email, reinforcing your brand message and extending the benefits of the event.

Website

The videos are posted on Ringier websites and e-newsletters to reach a wider range of target buyers.

Social Media

The videos are shared on Ringier's social media including YouTube, WeChat, WhatsApp, Zalo and other channels, to enhance brand awareness.

What FBPR 2019 Delegates Said

"This summit is an exchange meeting that was beyond the expectations of participants. It gave Indonesia's key manufacturers of food and beverage, plastics and plastics recycling an opportunity to share information face to face."

"Successfully established business networking relationships"

"A high quality event"

99% Met Expectation on the Conference in General

▲ Building rapport during the Welcome Dinner for Association Partners, Speakers and Customers

98% Met Conference Program and Venue Environment

▲ The Cocktail Party was an effective venue for conducting more business exchanges in a light, casual atmosphere

98% said they experienced positive impact on their learning/enjoyment in the format of the presentation.

▲ Exhibit Areas: Interaction & Networking during Tea Breaks

This is my first time to participate in Ringier's exchange meeting.

I am very surprised that the planning of the topics, the scale of the meeting, and the opportunity for business communication are all better than I expected. Thank you for the efforts of the Ringier team.

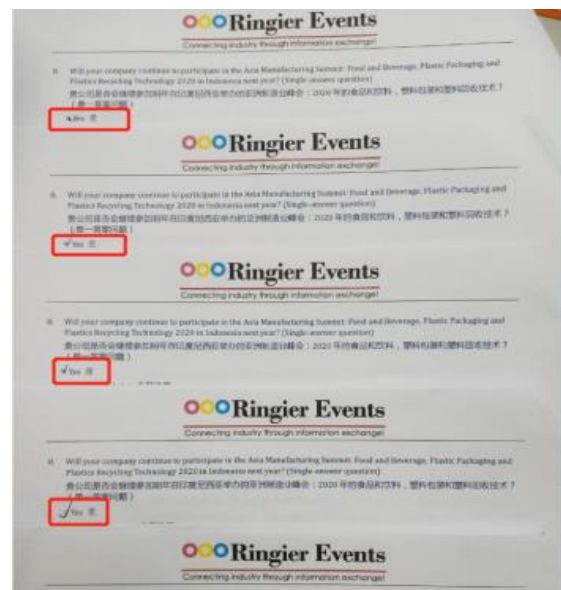

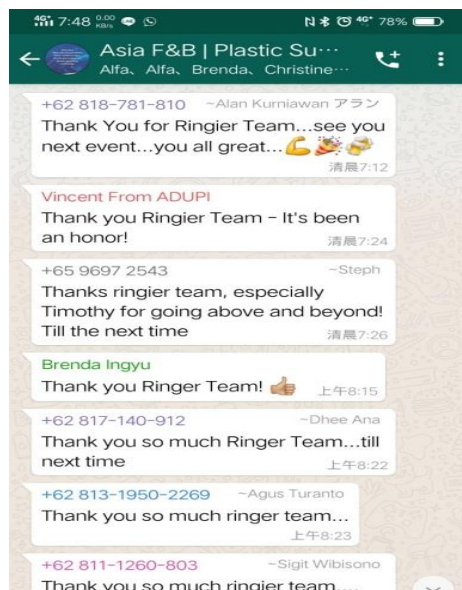

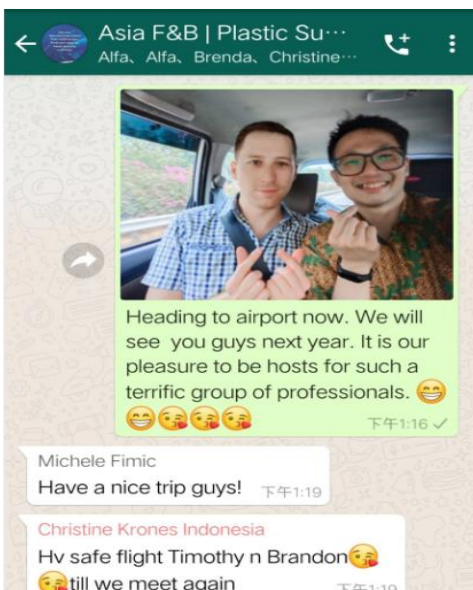

Mr. Kevin Mardyaputra M. Jeremia,
Fonterra Brands Indonesia

On-site tea breaks offer increased interaction among delegates, exhibitors, sponsors, and conference presentors

The cocktail party is also time for high-quality business communication.

Organisers received constant positive feedback during the two-day event. In fact, many sponsors have already decided to attend the next conference.

Organizer

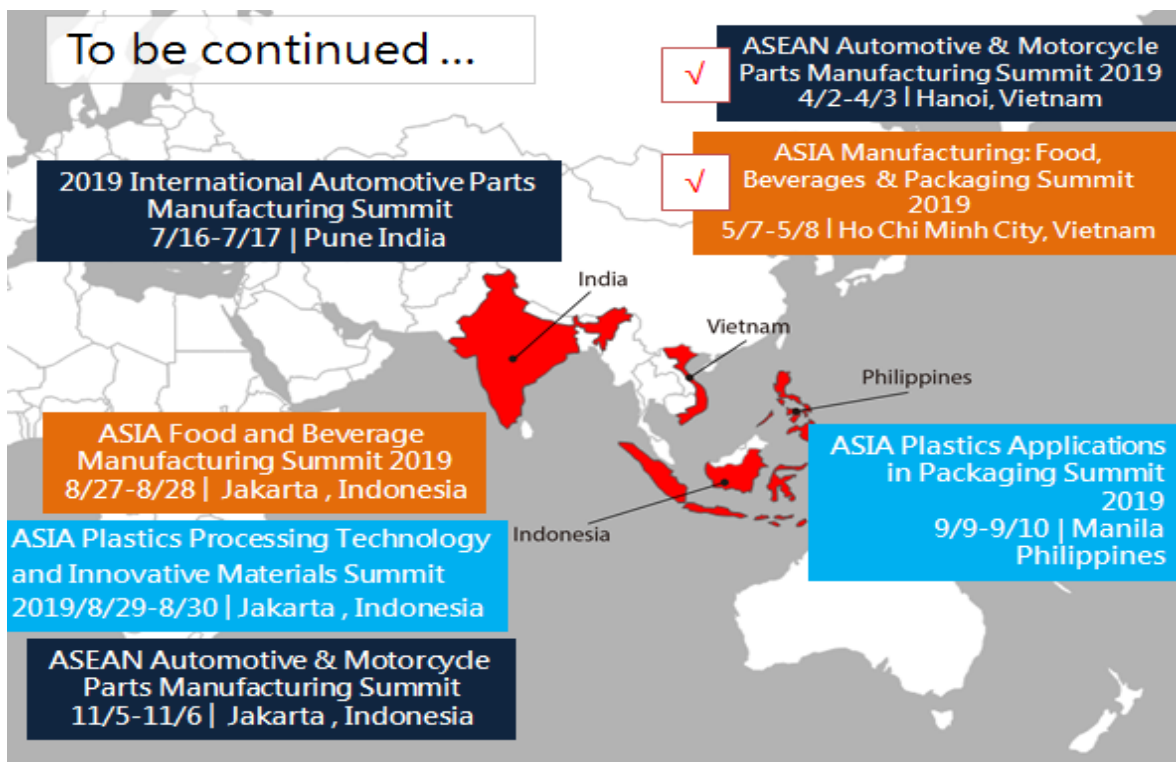

Connecting industry through information exchange!

Taking advantage of powerful media resources, Ringier Conference covers the industries of plastics, food, personal care, medicine & health care, nonwovens, coatings & ink, automobile, metal, mold & die, package, composite material, and the latest technologies. Since 2003, we organize over 20 high level conferences bringing industry leaders together for information exchange and networking opportunities in China and successfully extend into S.E. Asia from 2014.

A series of conferences in S.E. Asia that cater specifically to industry verticals like metalworking technology, plastics processing, automotive, food beverage processing & packaging representing growth sectors in many S.E. Asia countries. These sectors require high levels of technology and upgrading to meet the growing needs of sophisticated consumers both domestically and for export markets.

Conferences organized by Ringier not only provide industry leaders with the latest technologies, but also help Greater China enterprises innovatively explore new markets. For more information, please visit www.ringierevents.com
