

# Weblogic Administrator

Harmonia Holdings Group, LLC has an exciting opportunity for a **Weblogic Administrator** to join our team in **Blacksburg, VA**.

To perform this job successfully, an individual must possess the knowledge, skills, and abilities listed; meet the education and work experience required; and must be able to perform each essential duty and responsibility satisfactorily. Other duties, in addition to the below, may be assigned as necessary to meet business needs.

## Essential Job Functions:

- Perform WebLogic 10.3/12c server administration tasks such as installation, configuration of WebLogic, Apache, and OHS across all environments, and deploy applications in various work environments.
- Work on J2EE framework components including JDBC, JMS, and JNDI. Day to day responsibilities include environment checks for applications hosting on Linux/Solaris/AIX/SunOS. Troubleshoot issues on daily basis, for environment-related and code-related issues and security patches.
- Serve as 24/7 on-call support for critical business applications and resolve issues through ticketing system. Develop WLST and other scripts like shell/python to automate work or improve quality of service.
- Integrate WebLogic with an LDAP based identity management system such as active directory. Document standard operating processes and procedures.
- Document installations and environments. Research and resolve middleware and webserver related technical issues. Work with other application teams to ensure consistency across environments. Collaborate directly with client team members and onsite members for day-to-day operational support, issue resolution, and escalation. Environment: oracle WebLogic server 11g/12c, Apache 2.2, Solaris 9/10/11, JDBC Connection pool and data sources, JNDI, EJB, XML, JNDI, JDK 1.4/1.5/1.6/1.7/1.8, SOA, OSB, OBIEE, WLST, LDAP, ANT, WLST, Python, Shell Scripting, Bash Scripts, Sybase, Oracle database 10g, Networking and Protocols TCP/IP, Site minder, Servlets, Exceed, MS Office, Tectia, OpenSSL, Secure SSH, Winscp, FileZilla, Oracle Http Server.

## Minimum Required Qualifications:

- Master's degree in Information Systems, Information Technology, or related field.
- Two (2) years of experience working with WebLogic Application Server, Oracle Access Manager (OAM) and Tomcat environments.
- Experience with installation, support, and troubleshooting of Oracle Identity Management (OIM).

**Other:** Blacksburg, VA. Travel and relocation as required.
