Attachment : 1 Attachment (ToR)
Subject : **Invitation to The Indo-Pacific Chambers of Commerce & Industry Business Forum "A New Framework for Regional Economic Engagement"**

Respected Sir/Madam,

It is an honour to inform you that all Indo-Pacific International Chamber of Commerce and Industry will host the **Indo-Pacific Chambers of Commerce & Industry Business Forum "A New Framework for Regional Economic Engagement"** as Indo-Pacific Economic Framework (IPEF) Side Event in Bali, Indonesia on 18 March 2023, with the aim to act as a networking platform for concrete business deals among Indo-Pacific region participants.

In the context of the IPEF, this forum will promote and define tangible benefits from IPEF, including defining and improving necessary mechanisms for strengthening G-to-G cooperation, B-to-B cooperation, people-to-people and institutional linkages between the public and private sectors. More to that, it will inform the IPEF Bali negotiation and priority-setting by member countries on digital trade, supply chain resilience, energy transitions and food security.

High-ranking government officials from the participating nations, prominent corporate figures from the regional and international markets, and other relevant stakeholders will attend the business forum.

This letter is issued to invite the representatives of your country with expertise and experience in this field to participate as a participant in the forum. Please kindly register on the following Forum's website (bit.ly/IPCC_2023).

We look forward to your participation in the forum and hope to make the Indo-Pacific Chambers of Commerce & Industry Business Forum a success with your cooperation.

Indonesian Chamber of Commerce and Industry
Chairman

M. Arsjad Rasjid P. M.

KEMENTERIAN KOORDINATOR

Engagement: **Let's Make It Happen!**

TERMS OF REFERENCE

INDO-PACIFIC CHAMBERS OF COMMERCE AND INDUSTRY (IPCC) BUSINESS FORUM

A new framework for regional economic engagement: Let's make it happen!

Bali Nusa Dua Convention Center, Bali, Indonesia
18 March 2023

To enhance business-to-business cooperation and support regional economic engagement, Indonesia's Chamber of Commerce and Industry is convening an Indo-Pacific Chambers of Commerce and Industry Business Forum on 18 March 2023 in Bali. The Forum will involve virtual and in-person participation in a seminar format to consider the opportunities and challenges for shaping a **new framework for regional economic engagement that puts trade and investment at its heart**.

Date: **Saturday, 18 March 2023**

Location: Tanjung Bena Hall, **Bali Nusa Dua Convention Center 2**, Bali, Indonesia

The IPCC Business Forum purpose:

- I. Enabling business-to-business (B2B) exchanges on best practices and lessons on public-private sector collaboration and new ideas for improving the business environment across the Indo-Pacific region
- II. Panel discussions on enhancing cooperation in the priority areas of digital trade, supply chain resilience, and energy transitions, and
- III. High-level B2B networking opportunities to advance trade and investment, especially moving forward projects.

Participants from the Indo-Pacific region could include Chambers of Commerce and Industry, private sector executives, senior officials, and international technical experts. See [Attachment A](#): potential participants.

Agenda

The IPCC Business Forum features three interactive panel discussions, and a Business Networking Lunch, as well as an exhibit of projects for showcasing the economic potential of regional collaboration. The Forum seeks to reinforce opportunities to expand commercial cooperation through business networks across the Indo-Pacific region.

The structure of the IPCC Business Forum aims to promote better understanding of the potential tangible economic benefits of new and emerging cooperation initiatives, drilling down on three priority areas:

- I. **Digitalization** and its role in advancing regional economic growth and trade facilitation.
- II. Regional **supply chain resilience** strategies designed for the age of disruption and critical sectors.
- III. **Clean energy** network: fostering an effective energy transition in the region.

See [Attachment B](#): agenda, and [Attachment C](#): key questions.

Background

Chambers of Commerce and governments across the Indo-Pacific region recognise that enhancing commerce, investment, and economic cooperation could deliver a magnitude of broad-based, tangible benefits. Representing 40 percent of global GDP and 28 percent of global goods and services trade, Indo-Pacific partners are working toward enhancing economic cooperation and deepening economic integration.

Yet, in an age of disruption, new risks and opportunities are emerging and must be navigated cooperatively to deliver broad-based benefits to workers, consumers, businesses, and investors. Critical stakeholders need to be involved in shaping emerging new frameworks for regional economic engagement. Stronger cooperation between business, government, and civil society, particularly through exchanging good practices and innovative thinking, should underpin efforts to ensure a free and open, connected, prosperous, secure, and resilient region.

The IPCC Bali Business Forum presents an opportunity for exploring tangible benefits, new ways of working, and priorities for enhancing cross-border trade and investment. To inject momentum into deepening commerce and economic integration across the region, the IPCC Business Forum could help to improve necessary mechanisms for stronger Government to Government cooperation, Business to Business cooperation, as well as people-to-people and institutional linkages between the public and private sectors. The Forum could also consider the role of technical assistance and capacity building, developing a pathway to financing and investing in bankable projects, along with efforts to enable a special economic zone.

Attachment C: Key Questions

1. How should emerging frameworks for regional economic engagement work to facilitate Business to Business (B-to-B) cooperation to boost investment flows and long-term commercial collaboration?
2. To deliver tangible and broad-based benefits across the Indo-Pacific, how could public-private collaboration work to better enable knowledge sharing and innovation?
3. What are the common opportunities and challenges for strengthening and diversifying supply chains in critical sectors and goods?
4. What are the priority actions for ensuring adequate tools to measure, assess, prevent and mitigate supply chain risk? How could enhanced public-private collaboration make a real difference?
5. What are the critical products or initiatives for rapidly progressing common rules and transparency to help reduce transaction costs for businesses and investors?
6. What are the top, common actions for accelerating investment in zero and low-emissions energy systems to deliver a clean economy?
7. How should public-private sector collaboration underpin efforts for enhancing technology cooperation needed to rapidly commercialise currently available zero and low-emissions energy technologies to deliver a clean economy?
8. What key challenges do businesses face in meeting obligations in the ILO Declaration on Fundamental Principles and Rights at Work to achieve a fairer economy in the Indo-Pacific?
9. How could policymakers better support businesses across the Indo-Pacific empower workers to thrive to achieve a fairer economy?
